SUMMARY

Backend-focused Software Engineer with 2+ years building production-grade REST APIs and payment integrations on AWS, backed by hands-on DevOps experience in CI/CD, containerization, and cloud infrastructure. AWS Cloud Practitioner certified. Experienced in integrating and leveraging AI agents (Claude) to accelerate development workflows. Strong foundation in clean code, scalable system design, and end-to-end delivery.

EXPERIENCE

Software Engineer, Backend Developer — Radix Technology ***May 2024 – Present***

- Designed and built production-grade RESTful APIs using MVC architecture across projects serving up to 10K users, applying clean-code and scalable design principles
- Integrated multiple third-party services into production APIs, including payment gateways (Lahza, E-Sadad), OTP verification, transactional email, and Sentry for error monitoring and logging
- Deployed cloud solutions on AWS and optimized database configuration; built CI/CD pipelines that replaced manual deployment processes with automated workflows

DevOps Engineer — Art To Heart (part time) ***Mar 2023 - May 2024***

- Built CI/CD pipelines in Jenkins to automate the build, test, and deployment of ASP.NET and React applications
- Containerized applications with Docker and Docker Compose for consistent, reproducible pipeline builds
- Configured automated team email notifications and rollback on build failure to keep releases stable

DevOps Engineer Trainee — EXALT Technology Ltd, Nablus ***Oct 2022 – Feb 2023***

- Completed an intensive DevOps program covering System Administration, Bash scripting, Ansible, Docker, and OpenStack — earning a certification in each
- Applied the training to practical tasks and designed solutions for future projects

Backend Developer Trainee — EXALT Technology Ltd, Nablus ***Jun 2022 – Aug 2022***

- Built a strong foundation in Spring / Spring Boot, working across repositories, controllers, services, and security
- Delivered clean, well-documented projects following backend best practices

EDUCATION

An-Najah National University, Nablus, Palestine ***Sep 2019 – Dec 2023***
B.Sc. in Computer Science Apprenticeship — Software Engineering Track

CERTIFICATIONS

- **AWS Cloud Practitioner** View
- **Anthropic Claude AI — Certified** View

SKILLS

Languages: Java, C/C++, Python, C#, JavaScript, HTML, CSS
Frameworks: Spring / Spring Boot, .NET, NestJS, Django, Flask
Databases: PostgreSQL, MySQL, MariaDB, SQLite
DevOps & Tools: Docker, Kubernetes, Jenkins, Ansible, Git/GitHub, Bash scripting, Linux (Ubuntu), Apache, Jira
AWS: EC2, Lambda, API Gateway, S3, DynamoDB, SQS, SNS, IAM, RDS
AI Tools: Claude, Claude Code, MCP (Model Context Protocol), Prompt Engineering.
Languages (spoken): Arabic (native), English (professional)
